Article 33 of REACH requires GOLDSTAR to provide information about "substances of very high concern" ("SVHCs") if any SVHCs are present in an article supplied in the EU in a concentration exceeding 0.1%.

The table below lists our products that contain more than 0.1% lead (by weight), in accordance with Article 33 of REACH.

Ballpoint pen tips are specifically exempt from the REACH lead restrictions. The listed products have been lawfully placed on the EU market and do not present any hazard to consumers or the environment.
